# We are your expectation

**About us.** We are a science-led healthcare company with a special purpose: to help people do more, feel better, live longer

**Our Business.** Core is research, develop and manufacture innovative Medical Equipment and healthcare products.

**Our goal** is to be one of the world's most innovative, best performing and trusted healthcare companies

**Our values** and expectations are at the heart of everything we do and help define our culture - so that together we can deliver extraordinary things for our patients and consumers and make VALIAMO a brilliant place to work. Our values are Patient focus, Transparency, Respect, Integrity.

**Our expectations** are Courage, Accountability, Development, Teamwork.

# Italian design and technology

**FERRARI, MASERATI, PRADA, VALENTINO,  
ARMANI, GUCCI, DOLCE&GABBANA,  
FERRAGAMO, FERRETTI YACHTS**

Italian design is synonymous worldwide with the perfect symbiosis between form and function, of an effective and harmonic integration between techno-functional aspects and aesthetic-formal quality.

An ideal relationship which establishes itself when the aesthetic choices are a consequence of function and vice versa, without effort. With our design process, we develop both these aspects, in parallel, in such a manner that they remain completely integrated with the final product at the functional, aesthetic, material and technological level.

DESIGN ITALIANO

# Italian production

A new Factory with a new Show Room. The productive organization in Valiamo has a high production capacity, with which it guarantees deliveries in very short times all over the world, taking care of every logistical and shipping matter

Valiamo production is very versatile and manages to customize and adapt products to the specifications and customizations requested by customers. Dimensions, colors, materials and accessories are chosen in agreement with the customer, according to his needs and the technical specifications indicated in the tenders.

Valiamo takes care of its employees and has a very friendly working place. The staff is highly professional and expert and the safety for all people is managed by an ethic code.
